About the project

The Coronavirus SARS-CoV-2 (COVID-19) pandemic caused a global problem, affecting local healthcare systems and productive sectors among many others. It was a "wake up call" for the economy (investors), policymakers (governments) and the entire society. Progressively, it became widely obvious there is no "going back to normal" and a new normal will gradually be in place.

We want to actively take part in its creation, fostering entrepreneurship in youth in the post-COVID society.
