

MULTIPLIER EVENT IN RAMALES

Permacultura Cantabria invites you to the presentation
of the interactive book

'Lands of plenty - An introduction to Permaculture Design'

This interactive book is the Intellectual Output (IO) of the Erasmus+ project:
'PARTE-Permaculture: A way to Renovate Traditional Entrepreneurship
(2019-2-ES02-KA205-013620).

The book aims to be a practical tool targeted at youth workers who want to learn innovative and creative methodologies to drive sustainable projects and responsible business models by applying permaculture principles. However, this book is also designed for youngsters offering many clear explanations and a wide range of interactive options.

Through using this book, youth workers and interested young people will improve their skills to drive and facilitate group activities or training courses focusing on young entrepreneurship, including permaculture principles, social commitments and environmental responsibility.

Co-funded by the
Erasmus+ Programme
of the European Union
