Permaculture: A way to Renovate Traditional Entrepreneurship

On the 18th-26th of February, 2020 Permacultura Cantabria hosted a Training Course as part of the Erasmus+ project: **'PARTE- Permaculture: A way to Renovate Traditional Entrepreneurship** (2019-2-ES02-KA205-013620).

In this activity, 21 participants from Italy, Poland and Spain were involved in a Training Course about permaculture and Dragon Dreaming, a methodology to design sustainable successful projects. The main objective of this Training Course was to provide tools to youth and youth workers, in order to promote sustainable entrepreneurship and rural trade.

In addition, participants could visit some real initiatives of entrepreneurship located in rural areas of our region, Cantabria) such as an Alpacas Farm or La Grama Farm. After visiting these enterprises, participants could learn more about how to renovate traditional entrepreneurship and more sustainable models of business.

Finally, they had the opportunity to enjoy different natural places of Cantabria, they had walks and visited old Caves. Besides that, they created strong connections by learning and sharing this experience together.
